

Membership Benefits

A membership in the Eastern Lake Erie Charter Boat Association offers more than meeting the USCG drug testing requirements for licensed captains and mates.

- **Membership in NACO** (*National Association of Charter-boat Operators*) \$65 per year value
- **Access to the Members Only Facebook Group** Paid members will be invited to join the page by an officer.
- **Group Discount Programs** - See our Members Only Facebook group or any officer for more information.
- **Network of Captains** - Opportunity to network with other members to arrange multiple boat charters for additional business.
- **Listing on Association Website** - The website is hosted in association with Lake Erie United. Listing can be customized with your personal website and email.
- **Membership Meetings** - ELECBA meets several times per year and provides updates on USCG information/enforcement, NYSDEC fishery information and lake news/information.
- **A Voice** - Your voice on important topics becomes much louder when it is delivered from an organized group. The ELECBA has a relationship with local and state government leaders.

The Eastern Lake Erie Charter Boat Association supports youth outdoor activities, promotion of sportfishing and veterans groups through various events throughout the year. In recognition of these efforts, in September of 2019, the New York State Conservation Council awarded the President's Award to the ELECBA at it's annual meeting.

OFFICERS

Larry Jones.....	President
